SUMMARY

Full stack web developer with a background in Business & Economics. Trained at Northwestern coding boot camp and earned a certificate in full-stack web development. Innovative problem-solver passionate about developing apps; focused on mobile-first design and development. Strengths in creativity, teamwork, and building projects from ideation to execution.

TECHNICAL SKILLS

Software Languages: HTML, CSS, JavaScript, jQuery, Express, SQL, Handlebars, NoSQL, React, MERN.

PROJECTS

Kidding Kitties | GitHub | <https://github.com/Chi-Town-Coders/kidding-kitties>

Deployed link | <https://chi-town-coders.github.io/kidding-kitties/>

- Kidding Kitties is an app that can help people to adopt foster cats, the idea of this app was to show an image for a cat and once the user clicks on the image it shows a silly joke.
- I was responsible for border styling, centering, resizing images and jokes and making one Joke to appear on Click, worked on footer, and making the buttons responsive, and readme.md.
- The used languages were HTML, CSS and JavaScript.

Plant Pedia | GitHub | <https://github.com/nextCentury-coders/Plant-pedia>

Deployed link | <https://plantpedia.herokuapp.com/>

- Plant Pedia is an app that can help people get plants without them getting plants that they could not properly care for or plants that would not work for them. We came up with a way for people to not only find plants that could work for them in any environment,
- I was responsible about building up the files structure, render images inside container, media Query, adding buttons to landing page, add a search bar for plants, add schema to DB, styling ,deploy to Heroku, seed to Heroku, both front-end and back-end, I render images inside container, media Query, adding buttons to landing page, add a search bar for plants, post new plant, get plants, add schema to DB, styling ,deploy to Heroku, seed to Heroku, fixed several bugs.
- The used languages were HTML, CSS and JavaScript, SQL, Node, Express, Handlebars.

RELEVANT EXPERIENCE

Supply Chain Manager

2003 – 2015

ATC

Cairo-Egypt.

- Oversaw **supply chain** responsibilities including selecting **vendors**, evaluating **suppliers**, monitoring **shipments** and **deliveries**, **sourcing** products, managing **contract negotiations**, overseeing **inventory management**, and ensuring **worksite safety**; sustained effective and **efficient** daily **operations**.

Key Accomplishments:

- Conducted **team building**, employing **leadership** and **management** skills to provide support to employees, ensure adherence to **best practices**, and sustain a **productive** and **positive work environment**.
- Instituted **process improvements** to **client support** by implementing surveys that identified order discrepancies and obtained client feedback, increasing **customer service** levels from 45% to 85%.

EDUCATION

Full Stack Coding Boot Camp: Northwestern University, Chicago, IL.

- Anticipated graduation Jul 13, 2023,
- a 24-week intensive Full stack coding Bootcamp focused on gaining skills in coding and implementing different code languages.

Bachelor of Business & economics: Misr University for Science & Technology, Egypt

- Graduated in 2003.
